

Rock Box

Fold the pattern on the dotted line. Line up the edges carefully, and then cut them out together. Use a glue stick to firmly seal the layers together. Then fold up the sides, and use a hole punch to punch holes where the

circles are. Fold a long strand of raffia in half, and weave the double strand through the holes to hold the box together. Knot the ends together on the inside. Voilà! You have a box for your Stones of Remembrance.
